PROJECT OBJECTIVES

Intercultural Competence (IC) can be simply defined as the ability for successful communication with people of other cultures. This skill has to be sponsored and has to be certificated as a professional qualification and potential besides skills like leadership style, staff leadership or team building ability.

The project “Intercultural Driving Licence-Vocational” has an exchange of experts as ambition, who will exchange the most important points of intercultural competence in a partnership of two years. Project Partners will discuss, make research and exchange of opportunities concerning the sponsoring, realization procedure, certification and implementation of intercultural competences in the European Qualifications Framework.
